DIAGNOSTIC RADIOLOGY PROGRAM

ABOUT THE SCHEDULE

The 2022 Annual meeting of the FRS & FRBMA will focus on intermediate-term strategies for competing and succeeding in the US radiology marketplace, with an emphasis on important past trends on expected practice in 2022 and beyond. This year's theme is "The Evolution of Radiology, Then, Now and the Future." The meeting will kick off with the inaugural FRS Foundation Fundraiser, a Beach Fun Run and Walk, on Friday morning. The fun continues Friday evening as exhibitors and members come together for the popular Wine and Cheese Reception in the Exhibit Hall. We are always very grateful for the exhibitors' support of the FRS and the FRBMA and appreciate the opportunity to thank them personally. There are additional opportunities to interact with the exhibitors on Saturday as the breakfast and coffee break will be held in the Exhibit Hall, and lunch with the exhibitors allows for continued discussion and interaction.

The FRBMA Session begins on Friday afternoon and notable speakers include Richard L. Duszak, M.D., FACR, FRBMA ("Radiology Management Keynote Address"), Lawrence R. Muroff, M.D., FACR ("Two Critical Strategies That Are Almost Never Implemented By Radiology Groups"), and Ted Burnes ("Update of Legislation that Effects Healthcare"). The FRBMA joins the FRS Diagnostic General Session on Saturday morning with an outstanding lineup of nationally recognized speakers. The FRS Session will be highlighted by our annual series, The **Steven G. Miles, M.D., FACR, Radiology Keynote Socioeconomic Address**, featuring Dr. Frank J. Lexa ("The Next Ten Years and the Sustainability of US Radiology") and The **Philip S. Cook, M.D., FACR, FSIR Strategic Issue Lecture**, featuring Paul J. Chang, M.D., FSIIM, ("Machine Learning and Artificial Intelligence in Radiology: A Reality Check.")

Saturday afternoon will feature the **Dr. Lawrence R. Muroff Radiology Leadership Lecture** and W. Kenneth Davis, Jr, JD will present "The Structural Nuances of Current Radiology Practices." There will also be breakout sessions for Radiation Oncology and the Resident and Fellow Section on Saturday. The **Gold Medal Reception** and **Cocktail Party**, our marquee event, will be held early Saturday evening to honor the FRS Gold Medal recipient, the FRBMA Above and Beyond Award, and The LaDonna Nichols Lifetime Achievement Award recipient. Other outstanding FRS and FRBMA members will be recognized for their contributions to the practice of radiology throughout the year. An early start time for this event allows attendees and exhibitors the opportunity to enjoy the rest of the evening on their own.

Sunday, begins with the **Charles D. Williams, M.D., FACR Legacy Lecture and Breakfast**, presented by Dr. Joseph Cernigliaro ("Abdominal Imaging: Past, Present and Future") and is followed by the **Clinical Keynote Lecture**, presented by Dr. Beverly G. Coleman ("Radiology: Out of the Darkness into the Light with Perspectives from a Fetal Consultative Practice").

TARGET AUDIENCE

This CME activity is structured as a practical teaching course for diagnostic imaging physicians, radiation therapy physicians, and their business managers. It should also benefit radiologists, radiation oncologists, and nuclear medicine physicians, as well as other physicians who supervise and interpret these studies.

SCIENTIFIC SPONSOR

Educational Symposia

EDUCATIONAL OBJECTIVES

Attendees should, at the completion of this course, be able to:

- Evaluate current socioeconomic issues facing radiologists, radiation oncologists and radiology business managers and how to prepare for change.
- Learn about technology and payment trends that will significantly impact radiology over the next decade.
- Learn to be a better clinician and leader.

No special educational preparation is required for this CME activity.

ACCREDITATION

Physicians: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of Educational Symposia and the Florida Radiological Society.

Educational Symposia is accredited by the ACCME to provide continuing medical education for physicians. Educational Symposia designates this live educational activity for a maximum of 11.5 *AMA PRA Category 1 Credit(s)*TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Self Assessment Modules (SAMs):

Educational Symposia has been granted Deemed Status by the American Board of Radiology (ABR). This allows Educational Symposia to develop and implement SAMs that satisfy ABR Part II MOC requirements.

RADIATION ONCOLOGY PROGRAM

ABOUT THE MEETING

The Radiation Oncology session will include presentations from both attending faculty and residents. Presentations will review important issues including the evolving role of radiation therapy in hematologic malignancies, the use of proton therapy in skull-based malignancies, prostate cancer disparities in the precision medicine era, and creative problem solving in GYN brachytherapy as well as provide an update on the radiation oncology alternative payment model.

TARGET AUDIENCE

This symposium is structured as a practical teaching course for radiation oncologists in academic and community practice.

Educational Symposia designates this live activity for a maximum of 6.5 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

EDUCATIONAL OBJECTIVES

Attendees should, at the completion of this course, be able to:

- Understand the current role of radiation therapy in hematologic malignancies.
- Recognize the role of high-dose conformal proton radiotherapy for skull-based malignancies.
- Identify prostate cancer disparities in the precision medicine era.
- Find creative solutions for GYN brachytherapy.
- Learn recent updates on the radiation oncology alternative payment model.

No special educational preparation is required for this CME activity.

2022 FRS Annual Meeting Radiologists Job Fair

Sunday, July 17, 2022 • From 11:00 AM until 1:30 PM

First created in 2021, the Radiologist Job Fair was in response to requests from both Florida radiologists-in-training seeking employment and Florida radiology groups seeking to hire radiologists.

The 2021 FRS Inaugural Job Fair was well attended by both job seekers and six hiring radiology groups from radiology practices across the State of Florida. The Job Fair was so successful that it will be repeated at the 2022 FRS Annual Meeting.

The FRS Job Fair is open to all Florida radiology, radiation oncology and medical physics residents and fellows-in-training, as well as radiologists who are seeking lateral employment opportunities. Several hiring companies have already expressed interest in returning in 2022.

So plan on attending this hosted, professional, and informal Job Fair for both present and future Florida radiology positions. The event is structured to provide attendees the opportunity to hear from all of the hiring companies which is followed by ample time for networking with company representatives. Refreshments will be provided.

Separate registration for the event is **REQUIRED** and is **FREE** to all those seeking employment. Hiring employers interested in participating in the Job Fair may contact Lorraine Roger at lroger@edusymp.com for more information.
